

24H RAPID RESPONSE & BREAKDOWN PACKAGE

We are now thrilled to offer
guaranteed technical support
and fast solutions with

24h emergency callout

HOW DOES THE RR&B PACKAGE WORK?

We wish that every business would function without any breakdowns, however in the real world this is not always possible. With monthly or yearly subscriptions, we provide a safety net for customers. By subscribing to the RR&B package you are given 24h support and 24h fast emergency call-out to solve problems that may cause a breakdown in production.

To ensure we can provide fast support, we would visit your site and conduct an audit to familiarise ourselves with your process allowing us to provide fast support.
